Dear Hiring Manager,

I am excited to apply for the Software Engineer position with a Master's degree in Computer Science from the Illinois Institute of Technology and hands-on experience in software development, along with a strong passion for Machine Learning, I am eager to contribute to groundbreaking projects while honing my skills in both software engineering and machine learning(AI) domains.

As a Software Engineer at Tata Consultancy Services (TCS), I optimized transaction processing, customer account management, and risk assessment functionalities for Bank of America. Also currently I'm working at One Community Global as a Mern Stack developer. My internship experience at Hebeon Technologies as a Python Developer Intern further enhance my skills, where I developed a machine learning model to predict employee salaries. Additionally, I have undertaken several personal projects showcasing my proficiency in full-stack development and machine learning.

I am particularly drawn to the opportunity to engage in pioneering ML platform engineering projects at your company. I am excited about the chance to contribute to the organization. Thank you for considering my application. I am looking forward to the opportunity to discuss how my background, skills, and enthusiasm align with the needs. Please find my resume attached for your review.

"I am open to relocating for this opportunity."

Sincerely,
Sailavanya Narthu
